The ideal candidate should not only bring an outstanding CV but be passionate about shaping the future of work together with us.

- Work closely with our team of serial entrepreneurs and leadership team to develop and execute on strategic initiatives
- Manage and lead projects from start to finish
- Wear many hats and be versatile in working on different tasks and projects at the same time. Prioritize accordingly and execute with focus
- Build and implement processes to improve efficiency and scalability
- Collaborate with cross-functional teams to drive results
- Learn from and contribute to the entrepreneurial culture of the company
- Areas to learn in include HR, Finance, Operations, Compliance and Go-to-market

YOUR PROFILE

- First internship experience in a startup environment or consultancy

- Bachelors or Masters degree from a top-tier university or similar
- Strong project management skills and entrepreneurial mindset/drive
- Versatility and ability to wear many hats, think like a founder
- Strong interpersonal skills and ability to work well with others
- Experience with process creation and implementation
- Passion for AI and automation technology
- Fluent in English and German

If you are a highly motivated individual with a passion for entrepreneurship and technology, we encourage you to apply for this exciting opportunity. Join our team and help shape the future of automation.
