

# C++/Python Software Developer (m/f/d)

epunkt GmbH Klosterneuburg Vollzeit Berufserfahrung 10.7.2023

## C++/Python Software Developer (m/f/d)

**for smart solutions in the field of wind energy, photovoltaics, marine, aerospace and e-mobility!**

- Klosterneuburg
- Full Time
- EUR 3,500 - EUR 5,000
- 60 - 70% Homeoffice

Job Nr. EPWE35914

[Apply now](#)

### Your future role

- Maintenance and further development of the PHIL (Power-Hardware-in-the-Loop) test software
- Work closely with engineers to ensure continuous improvement of the PHIL test software
- With the software as an integral part of the product, use your expertise to ensure continuous optimization
- Technologies: C++ (Qt and gRPC) and Python
- If interested, a change within the teams is possible e.g. more towards hardware

### Desired qualifications

- Good knowledge in software development with C++
- Ideally knowledge of the programming language Python
- Ability to read and improve the code
- Proactive, hands-on mindset, willingness to learn new things and curiosity
- Flexibility in working hours
- Very good knowledge of English

### The special thing about this job

- Exciting and complex projects that always remain challenging
- Use of state-of-the-art technology (no legacy code)
- Separation of software and hardware (hardware knowledge is NOT a must)
- Relocation of candidates is possible

### Benefits

- Accessibility (via public transport)
- Accident Insurance
- Bicycle Parking
- Bonus
- Cafeteria
- Coffee & Tea

- Corporate Events
- Flexible Working Hours
- Food Allowance
- No All-In
- Onboarding
- Parking
- Pool Car
- Relocation Package
- Showers
- Team Events
- Training & Development
- Trust Based Working Hours

## Salary range

Between EUR 3,500 and EUR 5,000 gross/month according to qualifications and experience.
